PEPTIPLEX[®] technology

PEPTIPLEX[®] is a proprietary nano-complexation technology developed in-house to enhance penetration of bioactives deeper in the skin.

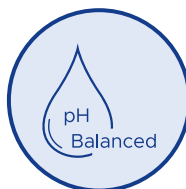

The triple-acting formulations lock-in moisture, enhance collagen production and rejuvenate skin.

Nano Pigmento™

BENEFITS

- ✓ Brighter complexion, giving the skin a radiant and luminous appearance
- ✓ Reduce dark spots and hyperpigmentation, promoting an even skin tone
- ✓ Help reduce signs of aging, such as fine lines and wrinkles
- ✓ Hydration, Nourishment, and soothing properties, promoting supple and calm skin

KEY INGREDIENTS

- ✓ Allantoin
- ✓ Niacinamide
- ✓ Nonapeptide-1
- ✓ Arbutin
- ✓ Ascorbyl Glucoside
- ✓ Pumpkin Seed Oil
- ✓ Bakuchi Oil
- ✓ Lexfeel Natural
- ✓ Liquorice Extract
- ✓ Saffron Extract
- ✓ Sandalwood Extract

Nano Pigmento™

1. Nonapeptide-1 is a brand new skin lightening biomimetic peptide.

2. NONAPEPTIDE-1 peptide composed of nine amino acids, it is known for its ability to help reduce skin discoloration and hyperpigmentation.

3. Nonapeptide-1 inhibits by 33% the synthesis of melanin induced by α -MSH. Tyrosinase inhibition reduces the formation of unwanted pigmentation allowing for control over skin tone and brown spots.

4. Nonapeptide-1 inhibit the production of melanin, the pigment that gives our skin its color. Doing so can help brighten the complexion, even out skin tone, and reduce the appearance of dark spots and age spots.

5. Nonapeptide-1 has also been found to have anti inflammatory effects on the skin. This is important because inflammation is one of the main drivers of skin aging, causing collagen breakdown and forming wrinkles and fine lines. By reducing inflammation, Nonapeptide-1 can help to prevent premature aging and promote healthy, youthful-looking skin.

4

Nano Pigmento™

6. NONAPEPTIDE-1 is stimulating the production of natural moisturizing factors in the skin, it can help to keep the skin hydrated and plump.

7. Prevents hyperproduction of melanin.

8. Whitening activity proven on Asian skin.

9. Nonapeptide-1
